

1. PRODUCT AND COMPANY IDENTIFICATION:

Common name/ Trade name:	BerryAlloc Kitchen Wall plate
Manufacturer:	Alloc AS, Fiboveien 26, N-4580 Lyngdal, Norway
Telephone:	+47 383 42200
Website:	www.berryalloc.com

2. COMPOSITION AND INFORMATION ON INGREDIENTS:

Name:	CAS-no.	% by weight	Health	Risk
Formaldehyde	50-00-0	< 0,01 %	-	-

3. HAZARDS IDENTIFICATION:

Installation of compact laminate: when cutting, make sure you operate on a steady support. Watch out for cutting yourself.

4. FIRST AID MEASURES:

Installation of compact laminate:

- If bleeding should occur due to cutting, use bandage under compression to prevent further bleeding. If bleeding doesn't stop, seek medical attention.
- If eye irritation occurs due to repeated exposure of the eyes to dust from cutting, rinse immediately with plenty of water.
- Cutting dust can be removed from skin by water and soap.

5. FIRE AND EXPLOSION DATA:

Compact laminate is considered hardly inflammable. **Fire fighting media:** Water, dry chemicals or foam.

6. ACCIDENTAL RELEASE MEASURES:

Not applicable.

7. HANDLING AND STORAGE:

Compact laminate may be transported without temperature restrictions, but the packages are to be stored in temperatures above the freezing point and protected from rain, snow and long-term bright light. We also recommend storing and transporting them horizontally. The packages should be protected from shocks along the edges.

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION:

Installation of compact laminate:

When cutting with a motorised cutting tool or electrical saw, make sure to employ the recommended personal protection outfit/ equipment (safety glasses etc.). Minimise skin contact to dust. Wear dust protective mask when ventilation is inadequate.

Gloves suitable for protection against cuts from rough, sharp edges are recommended.

9. PHYSICAL AND CHEMICAL PROPERTIES:

Physical state:	Plate, solid material; CL (compact laminate)
Colour:	Various colours/ patterns; otherwise not applicable
Odour:	Not applicable
Solubility description:	Insoluble in water and oil
Density:	Approx. 1460 kg/m ³
PH-value, cons. solution:	Not available

10. STABILITY AND REACTIVITY:

Compact laminate is considered stable and not reactive. It will not undergo any hazardous polymerisation.

11. TOXICOLOGICAL INFORMATION:

Compact laminate is considered not dangerous for humans.

12. ECOLOGICAL INFORMATION:

Not applicable.

13. DISPOSAL CONSIDERATIONS:

Compact laminate can be left at ordinary disposal sites/ containers.

The packing of polyethylene (PE) is to be deposited as ordinary plastic where source segregation is a part of the local waste disposal programme.

14. TRANSPORT INFORMATION:

Road transport:	ADR	Not regulated
Railway transport:	RID	Not regulated
Ocean transport:	IMDG	Not regulated
Air transport:	IATA	Not regulated

15. OTHER REGULATORY INFORMATION:

Not regulated

16. OTHER INFORMATION:
