NEEDTILE

CARPET TILES BY REAL

NEEDLE FELT IS TRENDY

The NEEDTILE collection includes 15 needle felt tile ranges, with a pile weight varying from 250g/m² to 1.500g/m². It comes in a nice color palette, both for the residential and commercial market.

At Beaulieu International Group we are convinced that needle felt can be much more than a functional flooring solution. ***Needle felt can be trendy, if you dare to push it to the limits of your own imagination.***

We translated this principle in our new “musical” marketing concept for the NEEDTILE collection: each collection is presented as a vinyl music LP in different genres, inviting you to select a melody and translate the beat into your floor pattern.

REAL

NEEDTILE FEATURES

Easy to install, simple to transport & handle
and **no permanent glue necessary**

A lot of **creative options** (color combinations)

Built to last and **extremely durable**

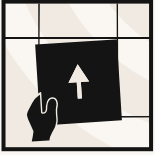

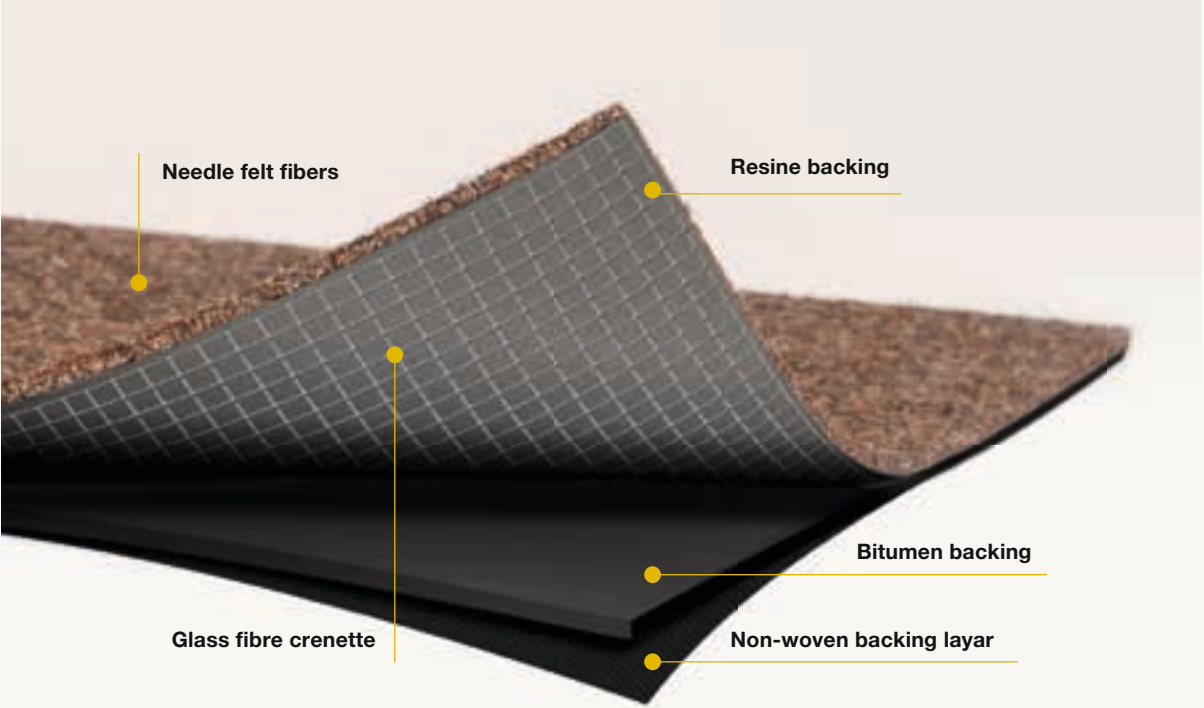

Bitumen backing: **superior dimensional stability**

Better acoustics: reducing impact noise and
a good **sound absorption**

Easy to clean

CROSS-SECTIONAL VIEW OF OUR BITUMEN TILES
